

SLAUGHTER MUST DIE.

So Says Jury In The Trial of
Murderer of Lee
Jenkins.

VERDICT SUNDAY MORNING.

Argument Was Concluded At
Noon Saturday By Judge
Breathitt.

The speeches in the case of Tom Slaughter, the murderer of Lee Jenkins at Edgote, were begun at night session Friday and concluded Saturday morning.

H. W. Linton for the defense and Commonwealth's Attorney D. P. Smith for the state spoke to a big crowd at night. Alvin H. Clark, for the defense, and Judge Jas. Breathitt for the prosecution, closed for their respective sides Saturday. Judge Hanbery gave the usual instructions and the jury took the case.

There were rumors by night of a hung jury—the trouble being for life or death. No verdict had been reached late Saturday night and it was generally believed that none would be returned before Monday morning and that it would then be a life sentence, rather than a mistrial.

About 11 o'clock Sunday morning Judge Hanbery was sent for and Slaughter was brought into the courthouse to receive the verdict.

The verdict was read by the clerk finding the defendant guilty and fixing his punishment at death by electrocution in the penitentiary at Edgote.

Albert Kelly was foreman of the jury and handed in the verdict. On the first ballot 10 voted for the death penalty and two for life imprisonment. The last man to sign the verdict was Juror W. T. Renshaw, who gave in to the will of the others Sunday morning.

The verdict, though unexpected, meets with general approval.

Other Cases Tried.

Richard Bronaugh, a small negro boy indicted for manslaughter for killing his father, Richard Bronaugh, Sr., was acquitted Saturday.

Jack Gray, charged with robbery; Tom Quarles, attempted rape on a colored child 12 years old, and Garrett Murrill, robbery, were all tried yesterday. Gray and Murrill were found guilty, and the jury was still out in Quarles' case at 5 p. m.

Commonwealth Attorney Denny P. Smith is absent this week and Jas. B. Allensworth is acting in his place. County Attorney Duffy is also taking a part in prosecutions.

Sidewalk Races.

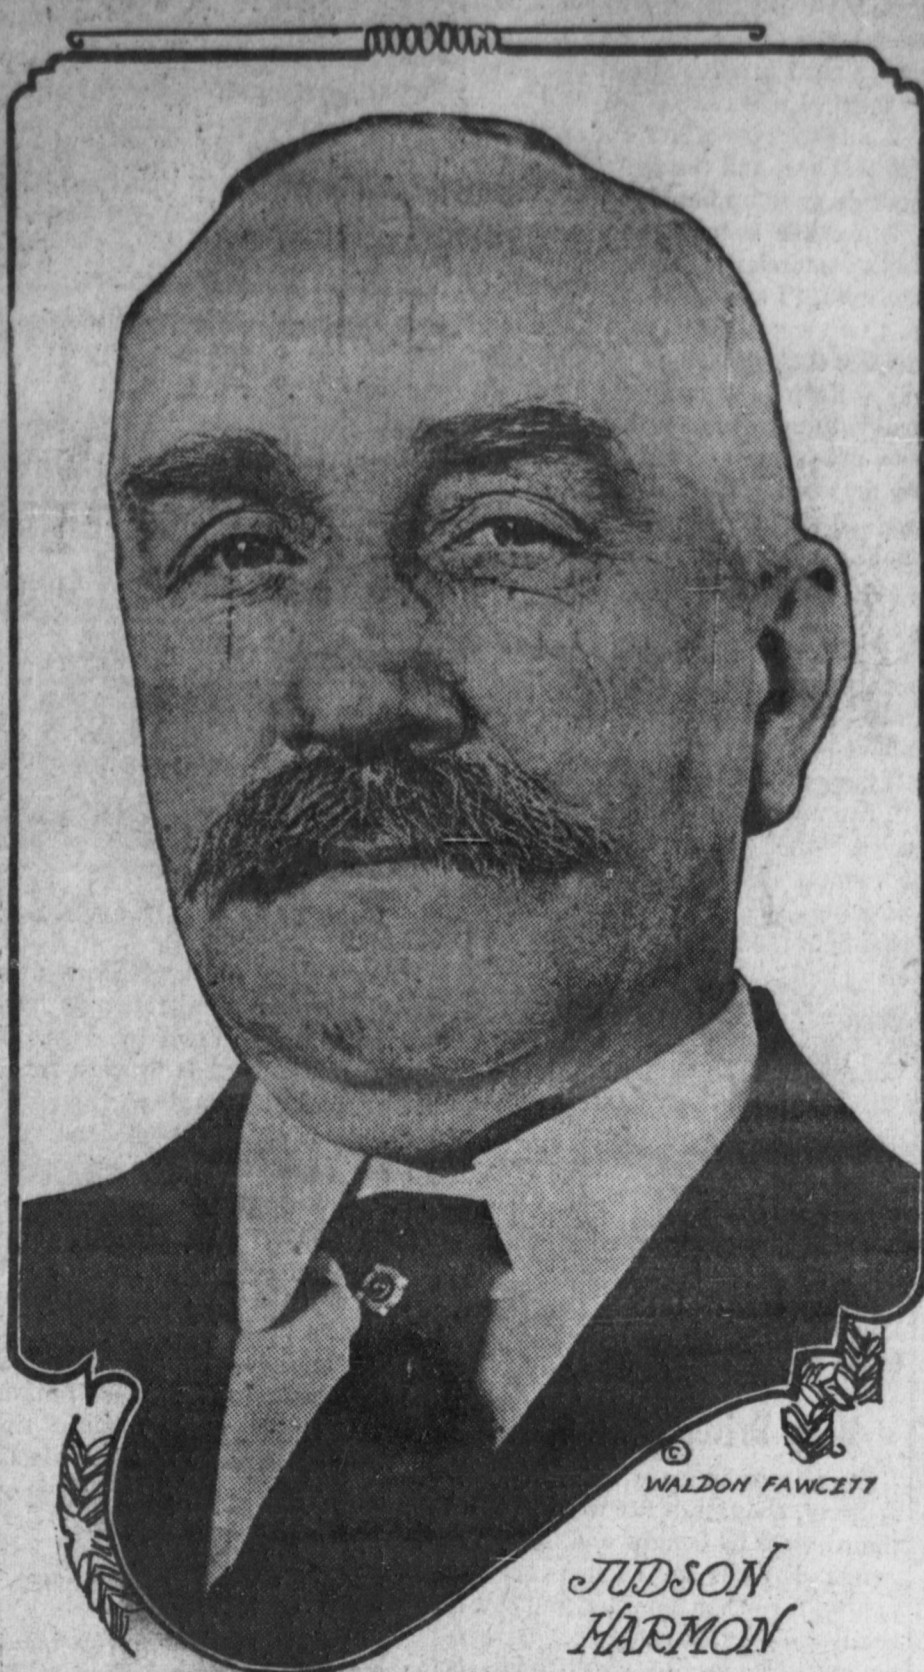

(Chicago, Ill., March 24.—Barbers the Calumet region, whose razors are fashioned to shave faces and concrete sidewalks, are emitting loudvoiced-wail because of conditions there.

Working in the concrete works gives men an outer surface to their faces not unlike a pavement in first-class condition. When they try their razors on this surface, say the barbers, they strike sparks from the faces and bits of steel fall from their best blades, making shaving impossible.

JUDSON
HARMON

Ohio Democrats swear by Governor Harmon, and his admirers are by no means limited to that state. He is more conservative than many members of his party could wish, however, and this is especially true in the western states. He has declared himself as opposed to the initiative and referendum, which doctrine seems to have a large following, but in some of the eastern states he is regarded with especial favor.

A picture of William Jennings Bryan and Governor Judson Harmon taking luncheon together has given rise to a flood of speculation of what it all means and what sort of political alliance has resulted in the meeting of the two Democratic leaders who agreed to pose for the camera in such a friendly attitude after they had been at "outs" for some time.

REV. JOE ARMISTEAD

Returns To Kentucky And Ac-
cepts Call at Cynthiana.

Rev. Jos. D. Armistead, a Hopkinsville boy who has become one of the leading ministers of the Christian church, is to return to Kentucky after several years at Walla Walla, Wash., where he was pastor of the Central Christian church. Mr. Armistead has accepted a call to the Christian church at Cynthiana, and will enter upon his duties May 1st. This is one of the strongest churches of this denomination in the state. Mr. Armistead's friends all over the state will welcome his return to Kentucky.

Maine Heroes.

Washington, March 25.—The American nation Saturday wrote the final chapter of the tragedy of the Maine and paid its tribute to the heroes sacrificed on the altar of patriotism 14 years ago. With a wealth of sentiment, the bones of 67 unidentified dead resurrected from the harbor of Havana, were consigned by a reverent public to the sacred soil of Arlington national cemetery, to be mingled with the dust of the country's hallowed dead.

President Taft and his cabinet, both houses of congress and all the other officials of the government set aside the day and did homage to the dead.

In Use 25 Years.

Pulaski, Tenn., March 23.—Mrs. Sue Connell of Pulaski has a lamp chimney which has been in constant use in her family for twenty-five years, notwithstanding the fact that it has more than once fallen and rolled upon the floor. It is made apparently of ordinary glass, a little thicker and heavier than chimneys are made of now.

FAIRY THEATER.

New Building at Lafayette for
Picture Shows.

The proprietors of the moving picture show at Lafayette have moved into their new theater, a building of most modern type, with a seating capacity of two hundred or more, and a most attractive place. The pictures secured are all of late release from film makers and will prove very instructive as well as entertaining. The enterprise has been a success from the start, and with a new theater and everything up to date a still more liberal patronage is assured the management.

Senator Biggerstaff Dead.

Bowling Green, Ky., March 25.—J. E. Biggerstaff, State Senator from the Eleventh senatorial district, died Sunday morning at St. Joseph Hospital in this city of heart trouble.

Senator Biggerstaff had been in ill health for several years, and for some months was subject to heart trouble. The immediate cause of his death, however, was superinduced by blood poisoning, which was caused from a scratch he sustained on his foot when getting out of bed a few days before leaving Frankfort.

He was a Republican elected last November.

Miracle Granted Reprieve.

Paducah, Ky., March 22.—Carl Miracle, doomed to die in the electric chair at the Edgote penitentiary Wednesday morning, was granted a reprieve by Gov. McCreary, and his attorneys have taken an appeal. Miracle killed a woman and man in Bell county. He was the first white man sentenced to the electric chair in Kentucky. Willard Richardson, who murdered John Violett in Carlisle county a few weeks ago, is condemned to die April 19.

SCHOOL TRAIN HERE APRIL 4

Left Lexington Monday To Tra-
verse Seventy Counties of
the State.

FARM, DAIRY AND KITCHEN

Thirty-Four Persons Will Make
the Trip—Exhibition of Live
Stock a Feature.

Louisville, Ky., March 25.—The farmers' school train left Lexington this morning for its trip through seventy of the counties of Kentucky. It is being run by the State Department of Agriculture and the College of Agriculture of the State University.

The train is made up as follows:
Car No. 1—Devoted to Agronomy. In charge of George Roberts of the Agricultural College and Joseph Wing, an expert from Ohio.

Car No. 2—In charge of Prof. Matthews of the Horticultural Department.

Car No. 3—Domestic science car, in charge of Miss Knowles, Dean of Domestic Science of the University of Iowa, Miss Aubyn Chinn and others.

Car No. 4—The diner.

Car No. 5—The Pullman.

Car No. 6—Devoted to the dairy interests.

Car No. 7—Palace Horse car, with representatives of the live stock world. Two typical steers, two milch cows, two hogs, two sheep and a department devoted to poultry.

Two Hours at Each Stop.

The last car of the train will be a flat car for live stock demonstrations and exhibits. Every branch of farming, fruit growing and live stock will be represented. At every stop two hours will be given for the lectures.

There will be thirty-four persons aboard the train. President Henry S. Barker of State University, Commissioner of Agriculture J. W. Newman and Dr. M. A. Scovell of the Experiment Station are among them. There will be lecturers from the Agricultural College and Eastern and Western Normal schools and distinguished lecturers from other states upon all farm subjects. Gov. M. Creary may go with the train two or three days.

On March 25 the train will leave Lexington and run to Mt. Sterling, Morehead, Olive Hill, Ashland, Vanceburg, Maysville, Augusta and other points in the northeastern part of the state. March 28, 29 and 30 will be spent in the central bluegrass region. April 1, New Haven, Shepherdsville and Springfield will be visited, with a night meeting at Bardonia. April 2, Lebanon Junction, Elizabethtown, Munfordville will be reached, with a night meeting at Horse Cave.

In The "Pennyryle."

THREE THINGS YOU NEED..

First—
A vital, new newspaper with the interest of the entire community at heart. Issues of the day are handled without fear or favor. You will find in this paper an up-to-date department for each member of the family. Clean, honest, straightforward—it is a paper your family should not be without.

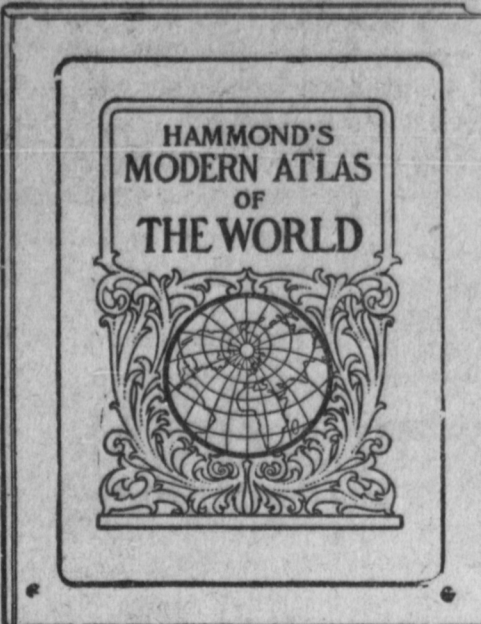

Second—
Technical World Magazine
is the one magazine that not only entertains in a fascinating manner, but which also instructs. It is the magazine for the busy business man, or for the person who wants to lull away a summer's afternoon, and be agreeably informed at the same time. It is profusely illustrated, and tells in a simple and interesting way of the discoveries of scientists, the achievements of inventors, the feats of engineers and explorers, and the opening of every new field of human endeavor. *What Jack London says:*—"I have just chanced upon my first copy of TECHNICAL WORLD MAGAZINE. There isn't anything like it. I want more, and I cannot wait for them to come, so I am sending you herewith check for which please enter my subscription and send me immediately the last two years' back numbers."

Third—
A Fine Atlas
This one is just off the presses. This is the year to obtain a new atlas. The 1910 Census has just been completed, this atlas contains the official figures, 123 pages of 3 color maps brought right down to date—every map giving the results of the most recent surveys. All railroads are shown and named and maps of all large cities are included. There are 21 double page maps showing in detail portions of the U. S. and Canada. Dimensions 10 1/2 x 13 1/2. Bound in stiff linen—Silver Leaf Title—printed on heavy plate paper. Sells regularly for \$5.00. A splendid gift.

ALL THREE
Only \$3.80

Special arrangement with Technical World Magazine and the publishers of this Atlas make this offer possible. But it is very strictly limited. You must act immediately.

TOWN HAD GREATLY CHANGED

Two Good Reasons Why Citizen, After Short Absence, Almost Failed to Recognize It.

Returning to Youkers after absence in Washington, Representative John E. Andrus rode at night through the city in his automobile to his residence in Hudson terrace. Passing spots that should have been reasonably familiar to him in the lower section of the city, he did not seem to recognize them at all. Thus it was in the principal business thoroughfares. At one point he was mystified and spoke to the chauffeur.

"Where are we now, John?" he inquired.

"This is Main street and Getty square," was the reply.

"Aren't you mistaken, John?" said the representative. "I don't recognize the corner at all."

"Probably not, Mr. Andrus," was the chauffeur's response. "You see, merchants have been lighting Main street and the city officials have cleaned it."

"No wonder it was unrecognizable," was the representative's comment, as the motor sped along at the speed limit of fifteen miles an hour.

SAME SOUND HEARD TWICE.

Is it possible to hear the same sound twice over? It would seem so from the experience of a manufacturer in Trenton, New Jersey, as related in the Telephone Review. He had been talking by telephone with some one at the factory from a point several miles away, when the familiar whistle blew for one o'clock. It came to him very distinctly, lasting about five seconds, and he had hung up the receiver when to his amazement the same sound came to him through the slower medium of the air. Of course the possibility is obvious enough, but to most of us it will be one of those things that we never thought of before.

DUG FAR FOR BURIED MEN.

Three miners of Kinross county, Scotland, were recently entombed for 18 hours in the Benarty Pit, Kelt. They were engaged on the night shift, and were piercing through to some old workings, when a large fall of material came away from both sides of them, completely shutting them in. Rescue parties immediately started in an endeavor to release them. It was found that the men, though caged in, were safe, and it was also seen that it would be a long and tedious job to get them from the Benarty Pit side. A rescue party was accordingly formed at the Aitken colliery, and after a spell of hard work the men were got out and ascended by the Aitken shaft. None of them were any the worse for their long imprisonment.

DOUBLY PROFITABLE.

Retail Druggist—I don't see any more profit in your liniment than in the brand I'm handling.

Agent for the Skinoffe Tens-strength Liniment—You don't? Why, man alive, there's double the profit in handling mine! My liniment is so powerful that every bottle sold means the sale of a bottle of salve.—Judge.

THE CULT.

Mrs. Wayupp—Then you think it is the coming religion?

Mrs. Blase—Undoubtedly. It has an excellent start. It has been in existence a year now and hasn't been pinched by the police yet.—Puck.

NATURALLY.

Reporter—I have a story here, sir, about a human salamander who could live without discomfort in a temperature of 300 degrees.

Editor—Good! That's hot stuff.

Doan's Kidney Pills are endorsed by thousands.

Have been used in kidney trouble over 50 years.

Read what this Hopkinsville woman says:

Mrs. O. A. McElroy, 622 O'Neal St., Hopkinsville, Ky., says: "I gave my young son part of a box of Doan's Kidney Pills and I know they did him a lot of good. Before I gave them to him, he used to wet the bed every night. One box of Doan's Kidney Pills was all he needed to strengthen his kidneys and that stopped his bed wetting. I consider Doan's Kidney Pills an excellent remedy for kidney trouble and can highly recommend them."

DOWN TO THE LITERAL FACT

Witness' Opinion Not of Extreme Value, but Certainly It Approximated the Truth.

Civil Engineer (in search of data)—Is it not the opinion of many people in this locality that the excessive overflow of these bottom lands is due to the lock and dam system?

Native—I dare say.

"Based on the fact that dams retard the velocity of the current and increase the deposit of sediment in the river bottom, thus gradually elevating its bed?"

"I fancy that's about it."

"You have resided in this vicinity many years, have you not?"

"Ever since I was a boy."

"May I ask if your theory coincides with what I have suggested?"

"Hey?"

"As to the flooding of these bottom lands—I dare say you have an opinion concerning the cause."

"I have."

"In your judgment, then, what is the cause?"

"Rain."

"I suffered habitually from constipation. Doan's Regulents relieved and strengthened the bowels, so that they have been regular ever since."—A. E. Davis, grocer, Sulphur Springs, Tex.

NO FAVORITISM.

"Is your town doing anything in the uplift way?"

"Oh, yes! We have a committee appointed to see all shows suspected of being immoral, and report on them."

"Good!"

"Yes, a committee of one thousand."

"Indeed! Isn't that a—er—rather large committee?"

"Well, you see, we can't afford to create any hard feeling, and so we made it large enough to include about everybody."—Lippincott's.

Electrify the Pupils.

They are using electricity in primary school education in Stockholm. Just how it is used does not appear, but we are told that the "classroom is subjected to electricity." And records are being kept to ascertain whether the electrically trained youngsters acquire the three Rs with greater precision and dispatch than those that are being brought up on sunlight, common sense and the rod.

CURRENT COMMENT

CREAM OF NEWS COMPILED AND COLLECTED FROM ALL SOURCES

A Maysville dispatch reports the marriage of Miss Mary Hitch to Mr. Jerome Sartain. There is anything in a name, there ought to be no doubt about that wedding.

A quietly dressed woman got in the light of Lady Constance Stewart-Richardson in a London art gallery and was asked rather rudely to stand aside. The lady stepped aside with the remark, "I am the Queen."

The Ohio river is higher than it has been for three years. In the bottom lands between Evansville and Newburg and down the river as far as Uniontown, homes are now partly surrounded by the water. People are being forced to leave their homes while horses, cows, pigs and other animals are being driven in droves to shelter.

The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Frost Act Not Lost.

A rumor has been current that the Frost bill, which provides a fine for any one who acts as a go-between in purchasing liquor or delivering liquor in a local option district, was lost and had never reached the Governor. The rumor was unfounded, however, for the bill was delivered to the Governor, and will become a law without the Governor's approval.

Died From the Blow.

Otho Jackson, col., died at his home near Salubria last week from the effects of a blow on his head March 9 by another negro named Burton Smith. They fell out because Jackson objected to Smith's attentions to his sister. Smith ran off after the blow was struck and has not been seen since. He came from Evansville.

STATE CHAPTER MEETS HERE.

Called Meeting Held At Which Plans For Entertainment Were Discussed.

Mrs. Clara Henrich, Grand Worthy Matron of the Order of Eastern Star, of Kentucky, visited the Carrie Hart Chapter Saturday night, a called session being held for the purpose of welcoming the visiting matron.

Mrs. Henrich lives in Newport, Jas. O. Cook, Ph. G. Druggist and Prescriptionist, Successor to COOK & HIGGINS. QUALITY FIRST CONSIDERATION Cor. Ninth and Main Sts.

Ky., and is on a tour of the State, in which she will visit all of the Chapters.

The principal matter of business in connection with her visit here was to discuss the preparations and plans for the entertainment of the Grand Chapter, which meets here October 22 to 24.

The order has 170 chapters and a membership of 9000 in Kentucky and 333,358 in the United States. It is the largest organization of women in the world.

Mrs. Henrich found the membership enthusiastic over the approaching meeting. Several speeches were made, all promising that the visiting body of from 300 to 500 delegates would be well cared for. Refreshments were served after the meeting.

CAUGHT 17.

Gambling Raid Brings In Nearly \$400 In Fines

The police made two raids on colored gamblers Saturday night and rounded up 17 negroes. A crap game on Hays street, at Jeff Handy's was raided and Handy and 12 others captured. They were tried yesterday morning and 11 were convicted and two dismissed.

Handy was fined \$52.50 and paid the fine. The other ten were fined \$22.50 each and three of them paid and the rest went to the workhouse for 22½ days each. This game resulted in fines to the amount of \$277.50, of which \$129 was paid in cash.

The other raid brought in four negroes caught playing cards for money and each was fined \$22.50, which will be worked out.

The Hays raid was made by Sergt. Jones and officers Merritt and Shanklin and the other by Lieut. Hawkins and Merritt.

The combined fines made yesterday the biggest day of the year in Judge Wood's Court.

Other cases of various degree ran the total fines up to \$477.50.

Razor In Her Bosom.

Mattie McCord, a colored girl 19 years old, was fined \$27.50 yesterday in police court for chasing another woman through the streets with a razor in her hand. She admitted on the stand that she had heard of her talking about her and that she put the razor in her bosom and went out to look for her and would have cut her if she could have caught her.

Mrs. R. E. Cooper, Mrs. M. C. Forbes and Miss Annie Forbes returned Sunday from a stay of three months in Southern California.

BAND BOYS

Will Begin at The Opera House April 15.

The Third Regiment Band has leased the Opera House and will on April 15 begin a picture show, using the Independent Service, entirely distinct from any that has been used here. The shows will consist of three reels of brand new pictures, only 30 days old. There will be afternoon and evening service and once a week there will be a band concert between the pictures. The Band boys have one of the newest Edison machines and first class service is promised. Vivian Atkinson will be the active manager of the shows.

ELKS TONIGHT

Official Visit of The District Deputy and Social Session.

Three special and very interesting features are announced for the meeting of the Hopkinsville Lodge No. 545, B. P. O. Elks, tonight:

Official visit of District Deputy Grand Exalted Ruler W. H. Albritton.

Initiation with new ritual. And a big Social Session, with much oratory.

If you are an Elk, you can't afford to miss it.

Visiting Elks cordially invited.

Blanks Received.

Blanks for the school census have been received, and Miss Jennie West, county superintendent, urges trustees to call for them at once. As the census will be taken April 1, the blanks should be in the hands of the enumerators before that date.

TRIGG MEDICS SUED

FOR MALPRACTICE

Harper Claims Leg Was Amputated In Negligent Manner.

Suit for \$15,000 has been filed in the United States district court by S. M. Harper, who resides in Tennessee, against Dr. Edwin Bogard, Dr. Will McWaters, Dr. Wade Jefferson and Dr. Homer Blane, all well known physicians residing in Trigg county near Canton, for alleged malpractice. The papers were served today upon the defendants by Elwood Neel, deputy United States marshal.

While an employee of a sawmill in Trigg county on February 3, 1909, Harper alleges that a cross-tie fell and struck him on the left leg. An injury three inches in length on the leg just above the ankle was made according to the allegations in the petition. Dr. Edwin Bogard was called and dressed the injury. However, he continued to suffer great physical and mental pain he alleges, but he was unable to secure the physicians, as they refused to come to his bedside.

Then Harper alleges that he secured Dr. Wade Jefferson and Dr. Homer Blane. While he was weak and helpless and unable to know his real condition he alleges that the physicians administered an anesthetic and amputated the leg. It is alleged that the operation was done in a negligent and careless manner, leaving the bone protruding through the flesh. Harper alleges that the injury has never healed and that corruption runs now from the leg. Since the operation he alleges that he has been unable to earn his usual wages of \$1.50 a day for the support of himself or family. By this he

says he has been damaged \$15,000, out his total damages are alleged to be \$15,000. Attorneys Miller & Miller, of Paducah, filed the suit.—Paducah Sun.

Purely Personal

Mr. Thos. W. Morris has sold his place on East Seventh street and will move April 1 to 104 West 17th street. During the summer he will build on a lot purchased on the corner of 17th street and the Canton Pike.

Andrew Breme, operator for the Postal Telegraph company, has resigned his position, and returned to his home at Hopkinsville. Owensboro Inquirer.

Councilman H. L. Haydon has gone on a business trip to Pittsburg.

Teller Stricken.

Denver, Col., March 24.—Former United States Senator Henry M. Teller, now nearly 82 years of age, is confined to his bed to day from the effects of a slight stroke of paralysis and injuries to his foot suffered recently. His advanced years make his complete recovery doubtful.

Elijah Martin, col. was killed by a train at Mayfield.

A FINE LINE OF COPY- RIGHTED ART CALENDARS.

The plans for your advertising campaign
this year should by all means include a hand-
some Art Advertising Calendar for 1913.
We have secured the exclusive agency for
the Copyrighted Calendars produced by the
A. M. Collins Mfg. Co., of Philadelphia.

This is one of the largest and most sub-
stantial Calendar houses in the United
States, and the quality of their line is su-
perior to that of any ever shown in this
section.

This line will be handled exclusively by
us in Christian and Trigg counties. It in-
cludes a great number and variety of sub-
jects in full color, as well as some hand
colored pictures of exceptional beauty.

The samples for 1913 will be in our hands
shortly, and we shall be glad to show them
to you at an early date. **MAKE NO PLANS

PROPER GROWTH OF CALABASH

Plant Thrives Better When Reared
in Hothouse Than It Will in
the Open Air.

The fruits are allowed to remain
on the vine, which is a relative of
the gourds, till the outer parts are
quite hard, for if gathered before
they are fully ripe difficulty is ex-
perienced in seasoning. On the other
hand, they must not be allowed to
remain long enough to be subjected
to frost, for a severe frost is likely
to cause injury. Dry, sunny weather
is more favorable to the development
of fruit than wet weather, for
though the plants will take plenty of
water, more satisfactory results are
obtained from watering by hand
than from the plants being subjected
to an excessive amount of rain. The
past summer, with its long-contin-
ued heat, has been ideal for the suc-
cessful cultivation of these gourds
in England, providing they were
well watered at frequent intervals.
Seeds sown here on a slight hotbed
and the plants allowed to grow till
they have filled a frame which could
be lifted off about mid-June, would
probably give the most satisfactory
results. If grown throughout the
whole of their career in a frame or
greenhouse, however, arrangements
ought to be made for a free circula-
tion of air at all times. Apart
from the utility of the fruits of this
plant, it is quite ornamental enough
to receive attention from a decor-
ative standpoint, either indoors or
out.—Montreal Standard.

GASTRONOMIC THOUGHT

Mrs. Newwed—I wish we had

Mr. Newwed—So do I. Old-fash-

PARTICLES IN A DROP OF WATER.

Figures are sometimes impressive
simply by reason of being so stupen-
dous that the human mind grasps
them with difficulty. An instance in
point is afforded by the illustration
offered to his hearers by an eminent
scientist, who, in order to bring to
their comprehension the idea of ulti-
mate particles of water, stated that
if he was to empty a tumbler con-
taining half a pint of water, letting
out each second a number equal to
1,000 times the population of the
earth, it would require somewhere
between seven million and forty-six
million years to empty the tumbler.
Lord Kelvin once assured us that
if a drop of water was magnified to
the size of the earth the particles
would be between the size of base-
balls and footballs. If that state-
ment is correct the drops of water in
all the ocean are not many times so
numerous as the particles or mole-
cules in a single drop.

THOUGHTFUL CHILD.

Little Alice was terribly afraid of
cats. One day she had been standing
on the doorstep for several minutes,
looking at a big black tomcat galli-
vanting on the fence. Finally she
rushed into the house, looking very
excited, and exclaimed: "Mother, I
thought I'd better come in. That
kitty was just so afraid of me, I felt
sorry for it, and came away!"—

ing is.

Mrs. Leeder—One foot is, any-
way; he's a kicker.

WISDOM OF MRS. WYSE.

Mrs. Green—You spoke just now
of social tact. Precisely what do
you mean?

Mrs. Wyse—By social tact I mean
getting familiar with all sorts of
people without letting them get fa-
miliar with you.

The Fifth Stenographer

By Edmund Moberly

(Copyright, 1911, by Associated Literary Press.)

Mr. Benjamin Holbrook, of the firm of B. Holbrook & Company, jobbers, had been absent from his business for three weeks, and therefore entered his office resolved to get back into harness as speedily as possible. After wading through a mass of accumulated correspondence, he rang for his confidential stenographer. She failed to appear. A second and a third ring were equally barren of results. Mr. Holbrook grew indignant. With a savage jab, he touched another button on his desk, and in a moment Watson, his chief clerk, stood at his elbow.

"Watson," he demanded, "why doesn't Miss Gayley respond to her call?"

"Miss Gayley was married while you were away."

"An office romance?"

"Yes," responded Watson with a smile. "Smithers, one of the book-keepers, is the other guilty party."

"Well, he got a scissible wife, confound him. Give him a ten per cent. raise. At the same time he robbed me of a good stenographer just when she had become efficient and valuable. It strikes me these cases are becoming pretty frequent in this office, aren't they, Watson?"

"This is the fourth in three years."

"Exactly," agreed Mr. Holbrook. "Four in three years, of which your own case was the first. Matrimony is a noble institution, Watson, but it cannot be allowed to play hob with this business the way it has been doing. I propose now to get a stenographer who will regard this office as something more than a stepping-stone to marriage. Miss Gayley's successor must be at least thirty-five years old. You will advertise at once for a lady

confessing to herself that she did not look it.

"Have you had any experience in this capacity?" he asked.

"None, whatever," she answered.

"But I have a good education and have fitted myself carefully for such a position, and I feel I can meet all the requirements set forth in your somewhat unusual advertisement."

"It was a little out of the ordinary, wasn't it?"

"Yes."

"But there was a reason for it. During the last three years I have lost no less than four stenographers through matrimony. It was a desire to secure some one who would view business as other than a stepping-stone to marriage that prompted that ad."

"I can safely say that there is no prospect of my making such use of it," replied Miss Holmes.

A trial showed that she was well equipped for the position. Mr. Holbrook reflected, also, that he had never recognized so many good qualities in an applicant before. He there-fore engaged her, and in a few weeks found reason to congratulate himself; for she developed an efficiency even above that of her very efficient predecessors. In a few months he began to regard her as indispensable, and found himself regretting that she was near him in office hours only.

And then it came. He was dictating to her one day, he on the one side of the big, flat office table, and she on the other, facing him. While grasping for some solution to a knotty business problem, he allowed his mind to wander. The plainly furnished office faded from his vision. The table became a dining table, covered with snowy linen upon which silver gleamed and crystal sparkled—such a dining table as one sees in a home; but Miss Holmes faded from the picture not at all. In his reverie he saw her sitting opposite him at the dream table—and then Benjamin Holbrook, bachelor, aged forty, came back to earth with a rush. He was in love. He was certain of it, despite the novelty of the sensation.

Mr. Holbrook was accustomed to direct methods.

"Miss Holmes, can you still safely say that there is no prospect of your making business a stepping stone to marriage?" he asked suddenly.

Miss Holmes was also in a reverie. She came out of it in confusion.

"I—I think so," she managed to gasp.

"Then there is a doubt?"

"Yes; there is a doubt," she admitted.

"I ask you to give me the benefit of it."

"Oh, I am not thinking of resigning," she protested.

"I am not asking you to give the business the benefit of the doubt, Miss Holmes; I am asking you to give it to me. I desire you to resign. Can't you see what I am getting at? I love you. I want you to be my wife."

"Wouldn't that be playing hob with the business?" she asked after a pause, smiling through her blushes.

Mr. Holbrook rose from his chair and started toward her. She fled to the door in a panic and paused with her hand on the knob.

"The business is injured to such ex-perience by this time," he laughed, still going toward her. "You must remember that my own romance has a quartet of precedents right here in the office. However, it shall be the last; for my next confidential stenographer shall be a man."

Miss Holmes covered her face with her hands as he reached for her.

"If that is the case, B—Benjamin," she murmured, "you might begin to look around for the man."

FIRST CLEAN THE SYSTEM

Thing to Do in the Instant That the Presence of Tuberculosis is Suspected.

The fever of consumption is not primarily due to the presence of the tubercle bacilli in the system. Indeed, unless there are other conditions which cause the bodily temperature to rise it is inclined to be sub-normal.

One of the interesting revelations of modern medicine is the fact that these germs may exist a long time in the human body without there being any rise of temperature whatever. This is plainly seen in a tubercular abscess, but it is also seen in the many cases in which for long periods there is no fever. What does cause the fever in the earlier stages is a disordered state of the alimentary canal. The stomach and bowels become deranged and full of toxins which, becoming absorbed, poison the system and cause the temperature to rise. For years it has been the practice of the writer to reduce any temperature to normal, especially during the first stages of the disease, simply by washing out the stomach and effecting a complete cleansing of the intestinal tract. Later on the fever is due to the absorption of broken-down lung tissue and to ptomaines, and so is quite another story.

When, therefore, tuberculosis is suspected the temperature should be taken and if fever is present the person should invariably go to his physician and have his digestive tract thoroughly cleansed, when by proper diet and outdoor life he will be able almost certainly to overcome the presence of the tuberculous germs.

Mrs. Willis—I suppose that in heaven we will be disappointed in not finding certain people there.

Mrs. Gillis—Yes. But we'll be more disappointed at finding certain other people there.—Puck.

The head of the firm was forced to,

confessing to that many summers. If you cannot find her, I'll have to get a man—but I prefer the woman, if she exists."

Benjamin Holbrook had never been married. At the age when other men take unto themselves wives, he had been too busy smoothing the path of the newly established firm of B. Holbrook & Co. over the thorny ways which infant industries must travel. Matrimony, he had reasoned, must wait upon success. Success he had finally achieved, and now it waited upon matrimony. If questioned, he would not have been able to say whether he had eluded matrimony or matrimony had eluded him, but now, at the age of forty, he was forced to confess to his friends that while it was still possible in his case, it did not seem very probable.

Being a bachelor, he had never been able to fathom the mental processes which led a girl to abandon a comfortable salary in his office for the purpose of sharing the salary of a male worker in the same office, and in much less degree had he been able to understand the line of reasoning which led the aforesaid male worker to persuade her to do so.

In employing office help, the head of the firm was able to discern merit at a glance. All his male subordi-nates had good qualities. The four women who had reigned in brief succession in the office were all well endowed in this respect—so well endowed, indeed, that four of the male subordinates had discerned their merit even better than the boss, with the result that for the fifth time in three years that gentleman, with all a bachelor's dislike for change in the existing order of things, faced the disagreeable prospect of becoming accustomed to a new stenographer. It was this fact, coupled with the knowledge that there were yet several un-married men in the office, all with good qualities, that led him to issue his edict concerning the age of the next woman who should grace his establishment.

Watson's advertisement brought but one applicant to Mr. Holbrook—a handsome, somewhat sad-faced woman, whose gown of black well became the slender plumpness of her figure.

"I am Miss Holmes," she stated simply. "I have come in answer to your advertisement for a stenographer."

"Thirty-five years of age, or older?" added Mr. Holbrook.

"I am able to meet that condition," was the calm reply.

TUBERCULIN BILL VETOED

Bill Fixing Property Situs Has Same Fate, Making Six in All.

Frankfort, Ky., March 24.—Gov. McCreary vetoed the bill changing the method of making the tuberculin test of dairy cattle, Senate Bill 56 which caused more discussion and argument than any bill which passed the Legislature. The dairy-men and the boards of health all over the State were fighting for or against his bill, and an extended hearing on the bill was held before the Governor.

In his reasons for the veto the Governor quotes Dr. Harvey Wiley and other pure food experts to show

that tuberculosis in cattle can be conveyed to humans; that the tuberculin test is of great value to the conservation of human as well as bovine life; that physical examination is not reliable, and that the proposed legislation would be a step backward in live stock sanitary control work. The Governor cites also that the new act would annul a law which, he says, proved adequate for eighteen years; would void the authority of the State Board of Health; leave the inspection of cattle to the discretion of fiscal courts and make application of the tuberculin test a question of arbitration among veterinarians whose qualifications in some instances would be open to challenge.

Two Other Bills Vetoed.

Two other bills were vetoed by the Governor, one of them the Ar-

nett bill fixing the situs of property and the other the bill regulating burial associations. The Governor says that the State would lose from \$200,000 to \$300,000 every year if the Arnett bill should pass. The bill exempted from taxes stock in foreign corporations held in Kentucky where the stock was listed for taxation in another State. The burial association bill regulated burial associations and placed them on the same basis as insurance companies.

The Governor did not sign house bill 463, by J. G. Stoll, allowing the State to pay for the bonds of State officials. The bill did not receive the signature of the Lieutenant Governor after it was enrolled, and, therefore, could not become a law, even with the signature of the Governor. The Governor disapproved only six bills of all the lot that passed the house during the last session.

Proposals For Supplies.

Sealed proposals will be received by the Kentucky State Board of Control for Charitable Institutions, at its office in Frankfort, Ky., until 12 o'clock noon, Tuesday, April 9th, 1912, for an estimated supply for six months of fresh beef and other fresh meats; for an estimated supply for six months of clothing, dry goods, shoes, hats, notions, etc., also for an estimated supply for three months of flour, meal, salted meats, lard, cooking oil, groceries and all food supplies, for the three State Insane Asylums and the Feeble-minded Institute under control of said Board. The Board reserves the right to reject any or all bids.

For blank proposals and specifications apply to Geo. B. Caywood, Secretary, Frankfort, Ky.

FORMAL OPENING

Of Sprouse Company A Big Success, Notwithstanding Inclement Weather.

Stock One of Handsomest in City And Company Recipient of Many Compliments.

The O. G. Sprouse Company's formal spring opening Friday and Saturday was a big success, notwithstanding the stormy condition of the weather both days. Their store in J. O. Cook building, East Ninth street, was visited by hundreds of people who feasted their eyes upon the big stock, so handsomely displayed. The arrangement of rich colors and graceful lines in the goods presented the appearance of a big picture gallery—a panorama of color and of contour, laid out with consummate craft and harmonizing in every detail.

Mr. Sprouse, who recently spent a month in New York City selected stock for the store here, displayed excellent judgment in purchasing the various lines for the trade in this section. While the stock is varied, he bought largely of the finest fabrics, everything of the latest style, and all tastes can be satisfied.

The Sprouse Company opened up in this city a few months ago and their success has been almost phenomenal. The establishment has "made good" in every particular and it will be good news to the public to learn that Mr. Sprouse has decided to remain in our midst.

Col. Sprouse Elected.

Col. R. P. Naylor's resignation as a member of the independent State Democratic Committee came with surprise and regret to his Springfield friends and admirers. However, it was a pleasure to learn that O. G. Sprouse was elected to the vacancy occasioned by the resignation of Mr. Naylor, and that Springfield is still to have representation on the State Committee. Mr. Sprouse's elevation is a deserved compliment. —Springfield, Tenn., Herald.

Col Sprouse is head of the O. G. Sprouse Company's store in Hopkinsville and his many friends here will learn with pleasure of the compliment bestowed upon him.

MR. BARNES' REMAINS

Brought To Christian County For Burial.

John Barnes, who moved from this county to Herrin, Ill., some years ago, died Thursday, aged 78 years. The immediate cause of death was pneumonia. The remains arrived here Friday evening and the interment took place in the Dick Boyd burying ground, near Kelly, Saturday. The deceased leaves a family. One of his sons, Thomas Barnes, lives near Mason's mill, South Christian.
